

DUI Screening Worksheet

Answer the questions below to the best of your knowledge and bring this worksheet with you to your appointment.

Questions:	YES	NO	NA
Did the officer see you driving?			
Did you admit to driving the vehicle?			
Did the officer have a valid and legal reason for stopping you or contacting you in/near the vehicle?			
Did you admit to drinking or doing drugs?			
Did you take any field balance and coordination exercises before arrest and handcuffing? (i.e. standing on one foot, walking a straight line, etc)			
Did the officer tell you that you could refuse to take the hand-held field breath test?			
Did you fail to satisfactorily perform the balance and coordination tests as demonstrated to you by the officer?			
Did you take a blood, breath, urine or saliva test within 1 1/2 hours after finishing your last drink of alcohol?			
Did you choose the blood, breath, urine or saliva test that you took?			
Were your test results greater than .12%?			
If you are charged with refusing to take a blood, breath, urine, or saliva test, did you refuse to take a test after being told that your license would be suspended or revoked, or that it would be a crime to refuse, if you refused?			
Did you voluntarily take the blood test?			
Did the breath test machine operator watch you closely for at least 15 minutes (20 minutes is recommended) before your first breath into each of the breath machines?			
Did the breath test machine operator check to make sure you didn't burp, belch vomit or have anything in your mouth prior to the test?			
Did you blow into the breath test machine only two(2) times?			
Were the results within .02% of another?			
After completing the breath test, did the officer/operator tell you that the breath test machine destroys your breath sample and therefore, you had the additional right to take a blood or urine test free of charge?			
If you took the urine test, did you completely empty your bladder the first time you urinated?			
Did the officer collect your urine twice?			
Was the officer with you when you provided both urine samples?			
Did you drink any alcoholic beverages, or take any drugs within 5-10 hours of being stopped by the officer?			
Did you feel the effects of the alcohol or drugs (i.e. feel a buzz, feel drunk or high, unable to drive)?			
Did the officer treat you fairly and professionally?
